

2022 Upload Calendar for the SACT API Portal

This document displays the upload schedule and the deadlines for the SACT API portal.
For more details please contact the helpdesk (NDRS.Datasets@nhs.net)

Activity Month	Upload Month	Submit to Registry Month
November	January	February
December	February	March
January	March	April
February	April	May
March	May	June
April	June	July
May	July	August
June	August	September
July	September	October
August	October	November
September	November	December
October	December	January

The requirements below are applicable every month

Month	Requirements
Activity Month	The month of the administrated and dispensed systemic anti-cancer therapy activity
Upload Month	File containing activity month data must be uploaded to the portal and all critical and local errors on the file should be resolved
Submit to Registry Month	All errors, including regimen mapping, must be resolved and the file must be submitted to the registry by this month

***Your file must be uploaded as early as possible in the month to allow plenty of time to fix errors and map regimens. Uploading on the last day will mean that your trust may not have time to fix errors and therefore could be uncompliant for various measures.**

If your file becomes "Ready to Submit" at any point during this process, then we advise to submit your file as early as possible.
